SOLDIERS AND SAILORS

Yankees Doing Wonderful Work.

John Richard of Occum has received the following letter from Private George Genereux of the supply company, 56th Regiment, New York, who is in France.

Aug. 15, 1918.

Hello, Mr. Richard, and all of you! Just a short letter during my precious moments today being my first day. I am supposed to sleep to-day all day. But I slept all forenoon and night, without a gas alarm or any air raid. I went to dinner at 12 and had a hearty dinner, washed up after dinner and clean up and feel good now, although I spent an awful night last night. I was on guard duty from 8 p. m. till 3 a. m. all alone in the trench.

There has been a regular committee that separated the tin (tin and lead) had it weighed and ultimately sold, by no means a small task. The league is grateful to the school children who have all taken such a lively interest in collecting the tin foil, and the youngsters may rest assured that many a Norwich soldier or sailor has kept warm through their efforts.

The collecting will now be done exclusively by the Red Cross, which will send the tin foil to New Haven to be conserved for the government.

PRIVATE GEORGE GENEUX

Yankees amongst the heavy artillery barrage, projectiles bursting on all sides. One air raid and two gas alarms. That is why we have a soldier on guard in these trenches. Our artillery barrage is wonderful. We give the Hun a hundred to one for an answer. Our artillery is blowing up a good many acres of land and destroying a good many villages, but the Yankees are certainly doing wonderful. Yes, more than wonderful, it things keep up we will be home by next autumn. I am sure you can't imagine Mr. Richard when we say that our boys are sending a hundred projectiles to one of the Hun's. I know what I am talking about. So far for the Hun projectiles that has felt to me so far is a about 100 feet. Of course, the boys who hear them come. You hear their gun and then you hear the projectile whistle along the front. They are firing over our head at all times. But of course, we don't mind, to be short and we get them. Our casualty is only one so far. We lost our regimental sergeant. I suppose it will appear in the Bulletin. He was one of the most liked sergeants in the company, in fact the best. It was a great sorrow to the Supply Company to lose this sergeant. He was one of our Norwich boys, he is gone now. But he will always be remembered by the boys of the supply company of the 56th Artillery Regiment, not only the company, but he was very popular with all the boys and a great many friends in this regiment. Now Mr. Richard a little news of the front if I am not trying to put too much over on the censor. I hope that he will let my short message reach you. We move here quite often today in one place a week in another place and so forth. We are lucky here. We have water a mile down the road you know Mr. Richard that don't mean to be dirty but I really am some days. We cannot wash every day here. It would sound funny to some people if we told them that we washed only once or twice a week. But you get no chance to wash or sleep some nights. You have a night of that is as good as a two-day pass to us, one night's sleep. But you don't get one night's sleep out of a dozen when you go to sleep. It is one or the other, air raid or gas alarm and it is not comfortable sleeping with a gas mask on. I have seen hundreds of German dead and of course, the Yankees trim them down so fast that I think the Americans will have to form a new grave digging regiment. No joke. We often see great souvenirs, watches, chains and so on but we are forbidden to touch them they are mines set by the Boches and of course we are wise to them. You can tell the word that it must be a mine on the Boche side because we have wonderful artillery and lots of it. Our food is good today up on the artillery front, we had steak, no air raid, no gas, Mr. Richard you cut for me. It is rather touch, but it is considered as good. We get our meals regularly and often on convoys, so that it is about as good as meals a day, but we should worry. You know wherever we move at all times, whether we land at morning or at night, the first thing that the Supply Company does is each man makes a dug out for his safety of air raid and we make it sharpnel proof. You know this woods we landed here at 4.30 p. m. the other night, had supper at 5 p. m. and at 6 p. m. when we dug out made 5-10 feet long and 4 feet wide and 5 feet deep. I and my sleeping Buddy (Hansen). Well George Lapage came in the following day at night he was on another convey and did not find time to dig a dug out so he came to me for safety and he surely got it. George being a pal of mine you know I couldn't refuse, so I picked 3 of us in that size dug out. George is well and enjoying it like the rest of us. You can just imagine how we enjoy it when the shells go whistling over your head a hundred feet. You think that they are about 3 feet. We most generally throw ourselves on the ground, lay flat on our belly and we often feel cold, ha, ha, should you worry. I often tell the boys here I wish I was working for old Pop, excuse that name but as the boys all know you Mr. Richard that name so we often use it. So Virtue has a truck, gee, that's great. It is just what we needed for that route. There are plenty of trucks over here. I passed a convey the other night. I was a truck down to the rail head after ratifiers. It was 500 trucks long and that is only one convey out of a dozen a week. So you see, how it is, we have some wonderful military roads over here in

BREAKS A COLD IN A FEW HOURS

FIRST DOSE OF "PAPE'S COLD COMPOUND" RELIEVES ALL GRIPPE MISERY.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end grippe, misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

which our engineers keep in good shape. Ha, ha, came pretty near putting this letter off till next week. Just had a gas alarm and it lasted an hour so I quit. I don't like to write with a gas mask on. I am sure none of the boys at home would let it. Picture us trying to sleep with them. Well, it's all in the game. We all game fighters and very willingly working boys, but often feel a bit cold and I assure you Mr. Richard that you won't find any of the boys that say they have never been afraid. I am well and in good health. Remember me to all of the boys in the store, also to Mr. and Mrs. Gregory, my mama, also.

While reading this letter over a shell fell and the wind from where it fell 100 feet, shook my paper.

GEORGE GENEUX,
Supply Co., C. A. C.,
56th Regt. A. E. F.,
France.

RED CROSS TO COLLECT TIN FOIL IN FUTURE

The Norwich Branch of the National League for Woman's Service will discontinue the collecting of tin foil which they have been doing for the past eight months, the proceeds of which have been used for free wool and other war relief.

There has been a regular committee that separated the tin (tin and lead) had it weighed and ultimately sold, by no means a small task. The league is grateful to the school children who have all taken such a lively interest in collecting the tin foil, and the youngsters may rest assured that many a Norwich soldier or sailor has kept warm through their efforts.

TURKEY HAS SENT A NOTE TO PRESIDENT WILSON

Paris, Oct. 7.—The German propaganda service at Berlin announced today that Turkey, through Spain, has sent a note to President Wilson to the same effect and at the same time as the communications forwarded by Germany and Austria-Hungary.

The bachelor who never grows about the weather would make a good husband of the meek and lowly virgin.

STRENGTHENS KIDNEYS PURIFIES BLOOD

You can't expect weak kidneys to keep up under the terrific strain of nature's effort to filter the acids and poisons out of the system unless they are given a little help. Don't allow your kidneys, the most overworked organs of your body, to become diseased when a little attention now will prevent it. Don't try to cheat nature. It can't be done.

As soon as you commence to have backache, feel nervous, tired or worn out without cause, GET HESY. These are usual warnings that your kidneys are not working properly and throwing off the poisons as they should.

Do not delay a minute. Get after the cause of your ailments or you may find yourself in the grip of an incurable disease. GOLD MEDAL Haarlem Oil Capsules will give almost immediate relief from kidney troubles, which may be the unsuspicious cause of ill health. GOLD MEDAL Haarlem Oil Capsules will do the work. They are the pure, original Haarlem Oil Capsules imported direct from the laboratories in Haarlem, Holland. Ask your druggist for GOLD MEDAL and actuse, no substitutes. Look for the name GOLD MEDAL on every box. Three sizes, small, medium and large. Money refunded if they do not help you.
